Neckseal for security

Jar Neckseal

PVC FILM / BLISTER

Blistering packaging is pre-formed plastic that usually has a pocket in which a product can be stored. This kind of packaging is popularly used in packing of consumer goods, medicines, and food items. We make the best quality of PVC sheets that are used in making blister packages.

Advantages

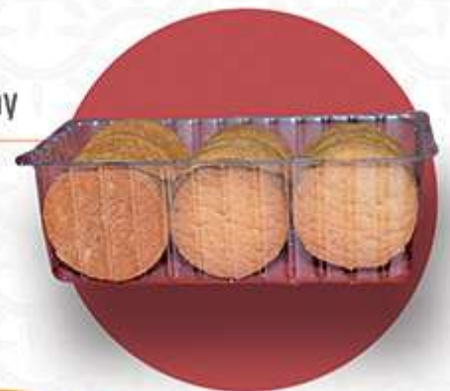

The PVC sheet for blister packaging that we make protect the product from humidity, contamination, physical damage which are widely used in packaging of biscuits, cookies, vegetables and fruits, electrical items, etc.

Applications

- Bakery Industries
- Fruits and vegetables
- Electrical items
- Eggs
